

# Hustle Coin

say hello to the moon

Hustle Coin was developed out of the necessity to provide investors a genuine token to invest and grow with. The creators of HSTL are investors like you, who are tired of the hundreds of scam coins hitting the market.

We asked ourselves many times, why Hustle Coin? And we answered it by coming up with a unique lottery system in which anyone can win simply by holding HSTL coin. There are no numbers that you need to purchase, no visiting ad-loaded websites, or anything else that can potentially lead to a compromised system. Simply hold Hustle Coin and you might be the one saying hello to the moon.

Introducing the Hustle Coin Moon Wallet.

The Hustle Coin Moon Wallet will be funded each month with 5% of the Marketing wallet's balance. From each HSTL transaction, 7% goes directly to the Moon Wallet then on the 25th of each month, Hustle Coin automatically selects one(1) HSTL wallet holding at least 100 HSTL coins or more and awards them 100% of the Moon Wallets balance. Best of all, the winning wallet is paid out in BNB.

# Hustle Coin in Detail

## Team KYC

The Hustle Coin development team has been fully KYC'd with pinksale.finance. The team is also available for video chat on our telegram channel <https://t.me/hustlecointoday> with any of our investors or potential future investors.

## Contract Audit

Audit completed by tech-audit.org and can be found on our GitHub and <https://hustlecoin.today>.

## Liquidity

The pool's liquidity has been locked on pancakeswap.finance forever. Additionally, 3% of every HSTL transaction goes to the pool's liquidity and is locked. This not only helps with solidifying the price of Hustle Coin but also ensures a healthy and stable network.

## Rewarding Investors Even More

In addition to being eligible to win the Hustle Coin Moon Wallet each month, every investor will share a 2% incentivized holding fee per transaction. We make it simple and provide instant rewards to the holder's wallet.

## Deflationary System

Hustle Coin will launch with 500,000,000,000 (500Billion) HSTL. Each month we will also perform a ~10% burn until a total of 50% of all HSTL coins are burned. By doing this, over time the value of Hustle Coin increases.

## Pre-Sale Price

Hustle Coin will launch via pre-sale on pinksale.finance with 25% of the initial supply open for sale. One(1) BNB will equal 20,000,000 HSTL coins, giving HSTL a pre-sale value of 0.0000261455 BNB at the time of this writing.

## Launch Price

Hustle Coin will be launched at a rate of One(1) BNB to 15,000,000 HSTL coins, giving HSTL a starting value of 0.00003486066 BNB at the time of this writing.

## Developer Wallet

Hustle Coin's developer wallet will be divided into two(2) team wallets totaling 6.5% based on the total supply after all token burns resulting in 16,250,000,000 HSTL being split between the two(2) team wallets. The team wallets will be time-locked and released to the developers in 15% increments every two weeks from launch with an initial 10% released 24 hours after the Hustle Coin launch.

## Marketing Wallet

Hustle Coin's marketing wallet will be funded with 6% of the coins' initial total supply. These funds will be used to fund the Moon Wallet, airdrops, AMA's, influencers, and other marketing needs.

## Hustle Coin Moon Wallet

The Hustle Coin Moon Wallet is a unique system that rewards one(1) lucky HSTL wallet holding at least 100 HSTL coins its entire balance on the 25th of each month at 0900 UTC and is paid out as BNB to the winner.

### **Eligibility**

Any Hustle Coin wallet that holds at least 100 HSTL coins is eligible to win the Hustle Coin Moon Wallet. The winning wallet will be ineligible and locked from winning for a period of 60 days. Developers' wallets, marketing wallets, and any other wallets directly associated with the development of Hustle Coin are forever blacklisted from winning.

### **Funding**

Funding for the Moon Wallet will be done via a 7% tax on all transactions. These fees will be converted to BNB and added to the Moon Wallet as such. Additionally, 5% of the total marketing wallets balance will be converted to BNB and added to the balance of the Moon wallet, this is generally done immediately after a winner is selected.

The community is also encouraged to support the Moon Wallet through direct donations.

### **Balance Tracking**

Real-time balance updates of the Moon Wallet can always be found on <https://hustlecoin.today>. Also, you will be able to view previous winning amounts and transaction IDs to the winning wallet.

### **Moon Wallet Drawing**

The winner will be selected on the 25th of each month at 0900 UTC. The Hustle Coin contract automatically selects one(1) HSTL wallet as long as their balance is greater than 100 HSTL coins. There is absolutely no ability for any outside influence to select a winner for the Moon Wallet.

### **How Do I Win The Moon Wallet**

Winning is fully random and open to any Hustle Coin wallet with a minimum balance of 100 HSTL coins. Holding more than 100 HSTL does not increase your chances of winning.

## Hustle Coin Tokenomics

Hustle Coin will launch with a total supply of 500,000,000,000 (500Billion) HSTL and will burn tokens at a rate of ~10% each month until a total of 50% of all HSTL tokens have been burned. Each transaction will carry a 15% transaction tax broken down to the following:

7%

will be converted to BNB and sent to the Moon Wallet.

3%

will be added to the pool liquidity to ensure a healthy, stable and increasing Hustle Coin market.

2%

will be shared among all HSTL coin holders as HSTL.

3%

funding to Marketing Wallet.

## Hustle Coin Pre-Sale Distribution

60%

of all funds raised will be forever locked on pancakeswap.finance

30%

will fund the Hustle Coin Moon Wallet for the very first giveaway.

10%

to marketing for pre-launch advertising,

## Conclusion

**Our greatest glory is not in never falling, but in rising every time we fall. – Confucius**
